

Brunswick Pro Lane

Zones created by Pro Lane's board lines define perfect zones for shooting spare combinations in the middle of the lane, and our unique down-lane markings make it easy to visualize the correct cross-lane ball paths for shooting corner pins.

Brunswick added 14 unique board lines, exclusive down-lane markings and alternating light/dark boards, creating new 6-inch target zones. The board lines run from the back of the approach to the pin deck, tying the dots and arrows together to help bowlers position their feet and focus on a target zone.

Pro Lane's board lines and alternating light/dark boards help bowlers to determine their "hook power," or how many boards their ball covers from the foul line to the pins. This simple equation helps bowlers at any skill level to consistently hit the pocket.

Our down-lane markings allow bowlers to identify their break points (the break point is where the ball leaves the conditioned portion of the lane and enters the dry portion, making a noticeable change in direction) and make the adjustments necessary to maximize pin carry.

Pro Lane's 5-foot wide, textured approaches give bowlers a consistent slide and the confidence that comes from sliding comfortably on every shot.
